EWB

Education Without Borders
San Diego State University

ABOUT US

Founded in 2009, EWB is a student organization at San Diego State University that seeks to create a support system which encourages diversity and the right to equal access of education. The activities that we do include:

- Socials
- Community Service
- High School Presentations
- AB540 Presentations
- Outreach
- Fundraisers
- Scholarships

OUR MISSION

Our mission is to highlight the issues affecting underrepresented and often marginalized students in our local and extended communities. We cultivate an environment that will empower students to further their education with the support of allies, while educating the community at large. We do so through raising awareness, community service, networking, and by sharing our experiences to break down stereotypes.

EMPOWERING STUDENTS

OUR GOAL

We seek to create change through the establishment of a support system that encourages diversity and the right to equal access of education. We aspire to become actively contributing members of society and global citizens by participating in endeavors that encourage personal growth and community improvement.
